

AFEEF AHMED JARIF

Software QA Engineer | Manual & Automation Testing

Dhaka, Bangladesh | afeefahmedprof93@gmail.com | +8801556741566

[LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Software QA Engineer with 3+ years of experience and a strong manual testing background across web, mobile and desktop products. Experienced in requirement analysis, test planning, exploratory and regression testing, API validation and release readiness. Skilled in test automation using Playwright with TypeScript and Selenium WebDriver with Java and TestNG, as well as performance testing and AI-assisted QA workflows. Have experience testing email and SMS marketing platforms, ticketing, reservations and POS applications.

PROFESSIONAL EXPERIENCE

Senior Software QA Engineer | Enosis Solutions

2025 - Present | Dhaka, Bangladesh

- Perform AI-assisted testing for an email and SMS marketing platform, using AI to support requirement analysis, test case preparation, regression planning and defect investigation.
- Lead manual, API, UI automation and performance testing for an event ticketing and venue-management platform, covering sprint changes, integrations and release readiness.
- Design and maintain Playwright/TypeScript end-to-end suites with Page Object Model, reusable fixtures, test data handling and stable locator strategies.
- Validate REST APIs in Postman, including authentication, request/response data, business rules, negative scenarios and error handling.
- Plan and execute k6 tests to assess response time, throughput and stability under expected and high-load conditions; investigate performance trends and potential bottlenecks.
- Clarify incomplete requirements with product and development teams, document reproducible defects with evidence, and verify fixes during regression and release testing.

Software QA Engineer | Enosis Solutions

2023 - 2025 | Dhaka, Bangladesh

- Tested desk reservation, desktop POS, ticket-scanning and event-management applications, adapting functional, exploratory and regression coverage to web, mobile and desktop workflows.
- Developed Selenium/Java automation with TestNG for desk reservation workflows; used Sikuli for image-based testing where DOM access was unavailable.
- Supported an event ticketing platform as a full-time QA resource, working with developers and product teams on requirement clarification, defect resolution and release validation.

TECHNICAL SKILLS

Manual testing & QA: Requirement analysis, risk-based test planning, functional, exploratory and regression testing; integration and cross-browser testing, defect investigation and release validation.

API, data & performance: Postman, REST API testing, SQL-based data validation, k6 load and stress testing.

Test automation: Playwright, TypeScript, Selenium WebDriver, Java, TestNG; Page Object Model, fixtures and test data management.

Delivery & collaboration: Git, GitHub, GitHub Actions CI/CD, Jira, Asana, Agile/Scrum.

AI-assisted QA: Codex, Claude Code, Cursor; requirement analysis, test planning, defect analysis and automation support.

SELECTED PORTFOLIO PROJECTS

QA Harness

AI-assisted QA workflow | [GitHub](#)

- Developed a QA workflow project focused on product requirements, structured test planning, defect investigation and QA documentation.
- Organized product flow analysis and reusable coverage planning to support automation and future regression cycles.

Playwright UI Automation Lab

TypeScript | Playwright | GitHub Actions | [GitHub](#)

- Built an end-to-end suite covering all 26 official Automation Exercise test cases, using Page Object Model and reusable fixtures.
- Separated page actions, test data and assertions; configured cross-browser execution, parallel runs, retries, reporting and GitHub Actions CI/CD.

Playwright API Automation Framework

TypeScript | Playwright API | REST | [GitHub](#)

- Built reusable API request layers for ReqRes flows, covering health checks, authentication, pagination, negative scenarios and CRUD-style operations.
- Validated response status codes, payloads and error handling with readable assertions and HTML reports.

Additional portfolio work: Selenium UI automation, k6 performance testing and Appium mobile automation. [View repositories](#)

EDUCATION & LANGUAGES

B.Sc. in Computer Science and Engineering

Islamic University of Technology (IUT) - OIC

2019 - 2023 | CGPA: 3.5 / 4.0

English: Fluent | Bengali: Native
